

4008TAG2

PW-1000T6 powered by:

DESIGN SPECIFICATIONS

√High quality,reliable,long life and complete power unit.
√ compact design.

√Easy start and maintenance possibility.

vEvery generating set is subject to a comprehensive test programme which includes full load testing and checking and proving of all control and safety shut down functions testing.

 $\sqrt{\text{Fully}}$ engineered with a wide range of options and

accessories:Electrical,mechanical,soundproof canopy and mobile units

(i)P.R.P. Prime Power - ISO 8528:PRIME POWER is the maximum power available during a variable power sequence, which may be run for an unlimited number of hours per year, between stated maintenance intervals. The permissible average power output during a 24 hours period shall not exceed 80% of the prime power. 10% overload available for governing purposes only.

@Max Standby power -ISO 3046 Fuel Stop power:Power available for use at variable loads for limited annual time (500h), within the following limits of maximum operating time: 100% load 25h per year,90% load 200h per year. No overload available. Applicable in case of failure of the main in areas of reliable electrical network.

Synchronous Generator		
Manufacturer		Guericke
Model		GRK 800G4
Rated output		800
Poles	num	4
Winding Conections (standard)		Star-serie Star-serie
Insulation	class	H
Enclosure(according to IEC-34-5)		IP23
Phases		3+N
Votage Regulaors		A.V.R (PMG MX341)
Steady voltage precision		within±1.5% from no load to full loading with cosΦ=0.8-1.0

*Alternator used by GTL Gensets meet the requirements of following Standard:BS5000,VDE0530,NEMA MG1-32,IEC34,CA C22.2-100,AS1359

Standard Control Panel -EPmaster EPM7

Protection, distribution, and automatic control panel, which starts the generator set when it detects a mains failure and stops it when the mains is restored with the control unit EPM7. It also starts and stops the group manually via a pushbutton or remote start-up by contact.

It has the following:

Emergency stop push button

② Protections:

• Circuit breaker (preheating resist.) 2P (16 A)

Protection fuses for control module

Voltage&speed trimmers
 Rettern sharmer

Battery charger
 DC switch

Working Lamp switch

⑦ Distribution:Direct output of the circuit breaker

® EPM7&EPM7+(cloud monitoring

communication 4G)control and protection centre

EPmaster EPM7

t has a digital LCD screen, which provides easy reading of the information regarding the Engine, Alterator, Mains and Charging. The controller meets all requirements for Auto Mains Failure (AMF) applications ncluding remote communication and internet control, user configuration and complete genset monitoring and protection.

Protection of the engine and alternator, with READINGS that can be made: Other characteristics: the ALARMS activated: Engine: cooling temperature/oil pressure/revolution speed Engine: low oil pressure/high coolant temperature/low and hi Event log, real-time clock, scheduled start & stop generator (can be set as start genset once a day/week/month whether with load or not). Maximu (rpm)/fuel level/battery voltage/battery alternator voltage/c gh battery Voltage./failure of the alternator to charge batteries rating hours/number of start Low fuel level. m 99 event logs can be memorized. Alterator: /ow and high voltage/low and high frequency/overl With maintenance function. Types (date or running time) can be optional and actions (Alterator: voltages between phases and between phases nd neutral/frequency/phase sequence ever, warning, or shutdown) can be set when maintenance time out. Mains: frequency/voltages between phases and between Equipped with CANBUS port and can communicate with J1939 enginet. Not only can phases and neutral (L1-N, L2-N,L3-N)/voltages between phases and (L1-L2, L2-L3, L1-L3)/phase sequence Mains: over and under voltage and loss of phase monitor frequently-used data (such as water temperature, oil pressure, speed, fuel consumption and so on) of ECU machine, but a so control starting up, shutdown, raising speed and speed droop via CANBUS port RS485 communication interface enables "Three remote" functions Control of the set: (remote control, remote measuring and remote communication) according to MODBU S protocol. STARTS and STOPS the set AUTOMATICALLY when mains Parameter setting: parameters can be modified and stored in internal FLASH memory failure is detected and when it is restored, respectively. It can

also operate MANUALLY and Auto Transfer Switch control

Standard Configuration & Optio	n	
Item	Standard	Option
	Standard air filter	Heavy duty air filter
	Standard fuel filter	Air intake shutoff valve chalwin type
	Standard oil filter	Intake air heater
	Low coolant level sensor	Oil temperature sensor
	Exhaust gases compensator	Diesel-powered heater
Engino	24V Electrical system	Engine water heater
Engine	Radiator with bloweing fan	
	Electronic governor	
	Sender WT	
	Sender OP	
	Hot components and radiator guards	
	Mobile components guards	
	Self-excited and Self-regulated	Air inlet filter
	IP23 protection degree	IP44/IP54/IP55
Alternator	Insulation H class	Space heater/anti-condensation heater
Alternator		Environment protection
		Temperature detectors
		Parallel operation
	Battery isolator switch	Distribution board with sockets kit and power busbar
	3 poles circuit breaker	4 poles circuit breaker
Electrical system	Door opening alarm	Adjustable ELCB (Earth Fault)
	Battery charger 220-240V	Grouding rod
		ATS
	Water separator filter	Diverter valve kit for external fuel tank
	Low fuel level alarm	Automatic fuel refilling kit
Accessories	Oil extraction pump	Trailer
	Tool kit for maintenance	Residential silencer
	Voltage/Speed potentiometer	Electric engine fuel heater
	No Expansion tank	Expansion tank for coolant water

Generating Set transport data

Dimensions(Open Skid Type) With Standard Fuel Tank

Over All Size

Length	mm	4650	
Height	mm	2050	
Width	mm	2415	
Shipping Volume	m3	23.02	
Dry Weight	Kg	6420	
Fuel Tank Capacity	L	1300	

and cannot be lost even in case of power outage; most of them can be adjusted using ront panel of the controller and also can be modified using PC via USB or RS485 port.

- The complete gen-set is mounted on whole on a heavy-duty fabricated, steel base frame.
- Antivibration pads are fixed between the engine/ alternator feet and the base frame;
- Base frame design incorporates an integral fuel tank.

 The generating set can be lifted or carefully pushed / pulled by the base frame;

Dimensions(Silent Type) With Standard Fuel Tank

Dial type fuel gauge and drain plug on the fuel tank; Forklift pockets within base frame (up to 500kVA);

					_	
√All canopy	parts a	re de	sianed	with	modular	principles.

Without welding assembly

All metal canopy parts are painted by electrostatic polyester powder paint.

Doors on each side

Thermally insulated engine exhaust system.

Emergency stop push button outside of canopy.

Easy maintenance and operation.
